DECEMBER, 1974.

DEAR CITIZENS AND PUBLIC OFFICIALS:

As Clerk of the 31st Judicial Circuit Court and Superior Courts of Lake County, it is my pleasure once again to present an Officials' Directory, which many will recognize, in this year's edition, as an expanded version of past rosters of officials compiled for many years by this office.

This roster covers every level of government in Lake County and, to a practical extent, at the state and national governments as well.

We appreciate the cooperation that has been extended to this office by the many officials in supplying the information contained herein. We have been as thorough as possible to avoid errors and feel that the listings as printed here can be relied upon for all practical purposes.

Officials and others can help us keep this roster updated and correct by advising us of any changes. We shall issue a supplement to this edition, following the 1975 General Elections in Lake County with regard to the City and Town governments.

This Directory is for use by public officials and for citizens, institutions and civic groups having need for such information.

Our thanks to all for the assistance and cooperation given us in this endeavor.

My kindest regards.

Sincerely,

*Nick Krochta*NICK KROCHTA, CLERK,

NOTES:

STATE SENATE: Senate members of the Indiana Legislature are now elected from 50 single-member Districts. The "Ideal District" consists of a population of 103,873, based on the 1970 U.S. Census.

Five of the first seven Districts in the state are completely in Lake County, while the other two are partially in this County and extend into other Counties. Five are not more than 1/2 of 1% over the ideal population figure, and the remaining three not greater than 1/2 of 1% under this figure. District boundaries for Senate Districts were determined by the 1971 Legislature and given minor corrections in the 1972 session.

HOUSE OF REPRESENTATIVES:

One hundred members now comprise the House of Representatives in the Indiana Legislature, 12 of whom represent the electorate of Lake County from six two-member Districts. The "Ideal Population" for two-member Districts is also 103,873. The greatest deviation from the "ideal" figure among Lake County's six Districts is slightly less than 1% over that figure. District boundaries for the House were also established by the 1971 Legislature.

LAKE COUNTY - 2nd Largest in Population - 8th in Land Area.

County boundaries are set arbitrarily without reference to population or to area. County populations ranged from 792,229 in Marion County to 4,289 in Ohio County. Lake County is Indiana's second largest in population -- 546,253.

Indiana's total land area is 36,180 square miles, with such areas in counties ranging from 671 square miles in Allen County to 87 square miles in Ohio County. Lake County ranks 8th largest among the state's 92 counties, with 513 square miles. The population per square mile in Lake County is 1,063.5. There is authority in the State Constitution for establishment of new counties, but none has been established since 1859. Lake County was carved out of what was originally Porter County. In 1836, LaPorte county was divided and the west section was named Porter County. In February, 1937, Lake County was formed in the extreme west section, and given the name Lake because it bordered on the southern tip of Lake Michigan. Counties were said to have been laid out originally on the basis of the ability of a resident in an outlying corner to drive a team of horses and a wagon to the County seat, pay his taxes and get back home on the same day before sunset.

The new law created a new Superior Court system for Lake County, combining the former five Lake Superior Courts, the Lake Criminal Court and the Lake Juvenile Court, and adding three Criminal Courts, all under the title of the Superior Court of Lake County.

The new Court structure now has five Civil Division Courts, Rooms One thru Five, four Criminal Division Courts, Rooms One thru Four, and a single Juvenile Division Court. The Lake Circuit Court of the 31st Judicial Circuit is not a part of the new Superior Court system.

All Judges now serving in the new Superior Court system shall, in subsequent General Elections, submit to the electorate of Lake County, the question of their retention in office, or rejection, should they desire to continue in office at the conclusion of their current terms.

Any vacancies occurring in the new Court system shall be filled by appointment of the Governor from a list of nominees submitted to him by the Judicial Nominating Commission.

NOTE: Winfield and Eagle Creek Townships have no Township Assessors. The responsibility for the work of this office in each of these Townships is that of the Lake County Assessor.

Lake County Townships, in general, function mainly as civil corporations for the administration of poor relief, assessment of taxable property and related functions. They no longer administer to elementary and secondary schools, since a statewide program of school reorganization has been completed. There are 1,008 Townships in the State of Indiana, eleven of them in Lake County. Townships vary in populations, from as few as 151 in Boone County to as many as 273,598 in Center Township of Marion County. (See "Township Population" table for Lake County on Page 43).

(See next page for roster of elected officials of the Township governments of Eagle Creek, Cedar Creek and West Creek Townships).
